REVISED LIST OF COMMERCIAL VARIETIES OF AVOCADOS

After twenty years of careful selection it affords us pleasure to offer a complete succession of standard commercial varieties of Avocados furnishing a continuous supply of this the most important food fruit, over a period of ten months of the year.

The following varieties have all fruited here and are vigorous growing trees, well suited to our climate and soil.

HAWAII, season June and July; weight, $1\frac{1}{2}$ to 2 pounds; shape, oblong oval; color greenish purple; pack 28 to 36 to crate; as hardy as Guatemalen type.

POLLOCK, season July to August; weight 2 to 3 pounds; pack 18 to 36 to crate; shape, pear form; color, green; West Indian type.

SIMMONDS, season August and September; weight, $1\frac{1}{2}$ to 2 pounds; pack 28 to 36 to crate; shape, broadly pear form; color, green; West Indian type.

TRAPP, season September to November; weight, 1 to $1\frac{1}{2}$ pounds; pack 28 to 46 to crate; shape nearly round; color, green; West Indian type.

NO. 50. Not named yet, has fruited here two seasons, November to December, and a promising variety; weight, 1 to $1\frac{1}{2}$ pounds; pack 28 to 46 to crate; shape, nearly round; color, green; Guatemala, West Indian hybrid.

LULA, season November and December; weight, 1 to $1\frac{1}{2}$ pounds; pack 28 to 46 to crate; shape, pear form; color, green; Guatemala Mexican hybrid. If this variety continues to resist frost in the future as in the past it will be one of the most valuable varieties under cultivation here.

NIMLIOH, season December to February; weight, $1\frac{1}{2}$ to $2\frac{1}{2}$ pounds; pack 28 to 36 to crate; shape, oblong, nearly round; color, green; Guatemala type.

EAGLEROCK, season February to April; weight, $1\frac{1}{2}$ to 2 pounds; pack 28 to 36 to crate. Shape nearly round; color, green; Guatemala type.

We can furnish trees of the above varieties 12 to 18 inches high growing in boxes 5x6x12 inches inside at \$1.00 each at our Nurseries, or in carload lots F. O. B. Miami, Fla., or at \$1.25 each crated F. O. B. Miami, Fla.

We can also furnish Haden and Mulgoba Mango trees same size and price stated above.

Yours truly,

GEO. B. CELLON.
